

Heavy Duty Matting
For the most severe environments

Flexigrid 2002 is the ultimate matting for heavy industrial areas where the production process will generate dirt, grime and spillages of liquids and heavy debris.

An extra aggressive slip resistant tread pattern ensures safety underfoot while being comfortable to stand on. Able to withstand the heaviest of spillages and harshest of environments.

- **Extra aggressive slip resistant surface - DIN 51130 R11**
- **Very hardwearing and long-lasting.**
- **Flexible grid construction that reduces fatigue.**
- **Loose laid and easily cleaned or relocated.**
- **Resistant to acids, oils and most chemicals.**
- **Suitable as an outdoor scraper doormat.**

Environmentally Friendly

Manufactured from recycled factory waste that is in turn 100% recyclable at the end of Flexigrid's use.

Flexigrid 2002 is also available in modules. Aluminium ramped edging is available for roll or modular formats.
